

## Objective

A recruitment agency has designed an online test to assess candidates. The test delivers a grade between 0 and 20. They consider that if the candidate has a grade greater than or equal to 10, the candidate is recruited.

## Data

### Input

Row 1: an integer **N** between 0 and 20 representing the grade.

### Output

The string *JOB* if the candidate has a grade greater than or equal to 10, otherwise the string *ECHEC*.

You can download sample input and output data files to work locally by clicking on the link at the bottom of the French version of the question
